TABLE OF CONTENTS

To Volume 84, September–December, 1976

BALL, A. J. S., D. K. WONG and J. J. ELLIOTT, Glucosamine resistance in yeast. I. A preliminary genetic analysis 311–317

BIDDLE, F. G. and F. C. FRASER, Genetics of cortisone-induced cleft palate in the mouse —embryonic and maternal effects 743–754

BOYD, J. B., M. D. GOLINO and R. B. SETLOW, The *mei-9*^{a} mutant of *Drosophila melanogaster* increases mutagen sensitivity and decreases excision repair 527–544

BOYD, J. B., M. D. GOLINO, T. D. NGUYEN and M. M. GREEN, Isolation and characterization of *X*-linked mutants of *Drosophila melanogaster* which are sensitive to mutagens 485–506

BOYD, J. B. and R. B. SETLOW, Characterization of postreplication repair in mutagen-sensitive strains of *Drosophila melanogaster* 507–526

BRYANT, STEPHEN H., The frequency and allelism of lethal chromosomes in isolated desert populations of *Drosophila pseudoobscura* 777–786

CHAKRABORTY, RANAJIT and MASATOSHI NEI, Hidden genetic variability within electromorphs in finite populations 385–393

CHOVNICK, A., W. GELBART, M. MCCARRON, B. OSMOND, E. P. M. CANDIDO and D. L. BAILLIE, Organization of the rosy locus in *Drosophila melanogaster*: Evidence for a control element adjacent to the xanthine dehydrogenase structural element 233–255

CLINE, THOMAS W., A sex-specific, temperature-sensitive maternal effect of the daughterless mutation of *Drosophila melanogaster* 723–742

COYNE, JERRY A., Lack of genic similarity between two sibling species of Drosophila as revealed by varied techniques 593–607

DE JONG, G. and W. SCHARLOO, Environmental determination of selective significance or neutrality of amylase variants in *Drosophila melanogaster* 77–94

DENELL, R. E., The genetic analysis of a uniquely dose-sensitive chromosomal region of *Drosophila melanogaster* 193–210

DICAPRIO, LAURA and P. J. HASTINGS, Gene conversion and intragenic recombination at the *SUP6* locus and the surrounding region in *Saccharomyces cerevisiae* 697–721

FREE, S. J., R. T. SCHIMKE and W. F. LOOMIS, The structural gene for α-mannosidase-1 in *Dictyostelium discoideum* 159–174

GALBRAITH, DONALD B. and ALAN M. PATRIGNANI, Sulfhydryl compounds in melanocytes of yellow (A^{y}/a), nonagouti (a/a), and agouti (A/A) mice 587–591

GELBART, WILLIAM, MARGARET MCCARRON and ARTHUR CHOVNICK, Extension of the limits of the XDH structural element in *Drosophila melanogaster* 211–232

GRATIA, JEAN-PIERRE, Studies on the mechanism of transduction by bacteriophage $\phi\gamma$. I. Genetic characterization of the transducing segment 663–674

HARASHIMA, SATOSHI and YASUJI OSHIMA, Mapping of the homothallic genes, *HM*α and *HM*a in Saccharomyces yeasts 437–451

HEDRICK, PHILIP W., Genetic variation in a heterogeneous environment. II. Temporal heterogeneity and directional selection 145–157

KIDWELL, MARGARET G. and J. F. KIDWELL, Selection for male recombination in *Drosophila melanogaster* 333–351

KONDOH, HISATO and HARUO OZEKI, Deletion and amber mutants of *fla* loci in *Escherichia coli* K12 403–421

KRIMBAS, C. B., The Lewontin and Krakauer test on quantitative characters 395–397

LEHMAN, JOHN F. and ROBERT L. METZENBERG, Regulation of phosphate metabolism in *Neurospora crassa*: Identification of the structural gene for repressible alkaline phosphatase 175–182

LLOYD, ROBERT G. and BROOKS LOW, Some genetic consequences of changes in the level of *recA* gene function in *Escherichia coli* K12 675–695

MASON, JAMES M., Orientation disruptor (*ord*): a recombination-defective and disjunction-defective meiotic mutant in *Drosophila melanogaster* 545–572

MAYER, THOMAS C., NORMAN J. KLEIMAN and MARGARET C. GREEN, Depilated (*dep*), a mutant gene that affects the coat of the mouse and acts in the epidermis 59–65

MILLER, D. A., R. TANTRAVAHI, V. G. DEV and O. J. MILLER, Q- and C-Band chromosome markers in inbred strains of *Mus musculus* 67–75

MORENO-GONZALEZ, J. and M. GROSSMAN, Theoretical modifications of reciprocal recurrent selection 95–111

NAGAI, J., H. BAKKER and E. J. EISEN, Partitioning average and heterotic components of direct and maternal genetic effects on growth in mice using crossfostering techniques 113–124

NELSON, ROLERT E., JOHN F. LEHMAN and ROBERT L. METZENBERG, Regulation of phosphate metabolism in *Neurospora crassa*: Identification of the structural gene for repressible acid phosphatase 183–192

NOTTER, DAVID R., G. E. DICKERSON and J. A. DESHAZER, Selection for rate and efficiency of lean gain in the rat 125–144

PETERSON, PETER A., Change in state following transposition of a regulatory element of the enhancer system in maize 469–483

PARKER, E. DAVIS, JR. and ROBERT K. SELANDER, The organization of genetic diversity in the parthenogenetic lizard *Cnemidophorus tesselatus* 791–805

PRAKASH, SATYA, Gene differences between third-chromosome inversions of *Drosophila pseudoobscura* 787–790

QUIROS, CARLOS F., Selection for increased numbers of extra heterochromatic chromosomes in the tomato 43–50

RAVIN, ARNOLD W., FRANCIS J. RYAN 1–25

RONEN, AMIRAM, ANA RAHAT and CALOMIRA HALEVY, Marker effects on reversion of T4r*II* mutants 423–436

SCHEIN, STANLEY J., Nonbehavioral selection for Pawns, mutants of *Paramecium aurelia* with decreased excitability 453–468

SIMMONS, MICHAEL J., Heterozygous effects of irradiated chromosomes on viability in *Drosophila melanogaster* 353–374

SINGH, R. S., R. C. LEWONTIN and A. A. FELTON, Genetic heterogeneity within electrophoretic "alleles" of xanthine dehydrogenase in *Drosophila pseudoobscura* 609–629

SMITH, M. YAO and ALEX FRASER, Polymorphism in a cyclic parthenogenetic species: *Simocephalus serrulatus* 631–637

STALKER, HARRISON D., Enzymes and reproduction in natural populations of *Drosophila euronotus* 375–384

SUNG, Z. RENEE, Mutagenesis of cultured plant cells 51–57

SWEENEY, T. KEVIN, ANN TATE and GERALD R. FINK, A study of the transmission and structure of double stranded RNAs associated with the killer phenomenon in *Saccharomyces cerevisiae* 27–42

TANAKA, ATSUMI, AKIHIRO FUKUNAGA and KUGAO OISHI, Studies on the sex-specific lethals of *Drosophila melanogaster*. II. Further studies on a male-specific lethal gene, maleless 257–266

TSAKAS, S. and C. B. KRIMBAS, Testing the heterogeneity of F values: a suggestion and a correction 393–401

WEBER, LEE, EDWARD BERGER, CHARLES VASLET and BARRY YEDVOBNICK, The ribosomes of Drosophila. III. RNA and protein homology between *D. melanogaster* and *D. virilis* 573–585

WEIR, B. S., A. H. D. BROWN and D. R. MARSHALL, Testing for selective neutrality of electrophoretically detectable protein polymorphisms 639–659

WEIR, J. A., Allosomal and autosomal control of sex ratio in PHH and PHL mice 755–764

WRIGHT, DAVID A., CHUN-PING HUANG and BARBARA D. CHUOKE, Meiotic origin of triploidy in the frog detected by genetic analysis of enzyme polymorphisms 319–332

WRIGHT, THEODORE R. F., GLENN C. BEWLEY and ALLEN F. SHERALD, The genetics of dopa decarboxylase in *Drosophila melanogaster*. II. Isolation and characterization of dopa-decarboxylase-deficient mutants and their relationship to the α-methyl-dopa-hypersensitive mutants 287–310

WRIGHT, THEODORE R. F., ROSS B. HODGETTS and ALLEN F. SHERALD, The genetics of dopa decarboxylase in *Drosophila melanogaster*. I. Isolation and characterization of deficiencies that delete the dopa-decarboxylase-dosage-sensitive region and the α-methyl-dopa-hypersensitive locus 267–285

ZALI, A. A. and R. W. ALLARD, The effect of level of heterozygosity on the performance of hybrids between isogenic lines of barley 765–775
